Button-fix™ - 2020 Fix Marker Tool

Variant code: 171-008-2

The **Button-fix™ 2020 Fix Marker Tool** is a precision installation accessory designed to simplify the accurate positioning of **Button-fix™ Type 2 concealed fixing systems**. Developed to help installers achieve perfect alignment quickly and consistently, the Fix Marker significantly reduces measuring time while ensuring reliable engagement between the Fix and Button components.

Simply used during the installation process, the Fix Marker accurately transfers the fixing position, helping to eliminate alignment errors and speed up assembly. It is the ideal companion for **Button-fix™ Type 2 Fixes**, making the installation of removable access panels, bath panels, cabinetry and furniture both faster and more precise.

Whether you're a professional joiner, cabinet maker, shopfitter or DIY installer, the Button-fix™ 2020 Fix Marker Tool provides a simple, reusable solution for achieving consistently accurate concealed panel installations.

Product Features

- Genuine Button-fix™ 2020 Fix Marker Tool
- Designed specifically for Button-fix™ Type 2 fixing systems
- Provides fast and accurate Fix alignment
- Reduces measuring and marking during installation
- Improves positioning accuracy
- Speeds up panel installation
- Simple and easy to use
