

Button-fix™ – 2020 Router Multijig

Variant code: 171-019-6

The router Multijig helps when machining the oval recesses required for rebated configurations of Button-fix™.

The Multijig frame is clear acrylic, so that you can see the work piece below, and has printed guide marks.

It has three clearly labelled apertures dimensioned to suit the Type 1, Type 1 Flush, Type 1 Bonded and Type 1 Metal Fixes.

Download instructions for how to use the Button-fix Multijig below.
