

Button-fix™ – Button for CSK Wood Screw – Pack of 100

Variant code: 171-002-1

Button-fix™ Button for CSK Wood Screw: The Ultimate Invisible Panel Fixing Solution

Tired of visible screws ruining your clean aesthetic? Discover the revolutionary **Button-fix™ Button for CSK Wood Screw**, the **fast, strong, and completely secret fixing system** engineered for professional tradespeople and DIY enthusiasts. This durable nylon button is the essential counterpart to the Button-fix Fixes (Type 1 or Type 3), creating a robust, removable, and perfectly aligned panel connection. Achieve a **flawless, professional finish** on all your installations!

Key Features

Feature	Benefits	Why it Matters
Countersunk Screw Compatibility	CSK Wood Screw, 5mm Diameter, Secure Fixing	Ensures compatibility with standard hardware for a strong, flush connection to the sub-frame.
Durable Nylon Polymer	Heavy-Duty Panel Fastener, Indestructible Nylon, Built to Last	Guarantees exceptional strength, temperature resistance, and long-term durability for demanding applications.
Simple Slide-and-Click Assembly	Easy Install Fixing, Quick Panel Mounting, Fitter Friendly	Massively reduces installation time and complexity, saving labour costs and preventing guesswork.
Essential Component	Removable Panel Fastener, Secret Fixing System, Panel Alignment	Works with Button-fix Fixes (Type 1 or Type 3) to create a hidden, secure, and fully demountable

Feature	Benefits	Why it Matters
Versatile Applications	Cabinet Fixing, Wall Cladding, Access Panel Hardware, Furniture Assembly	joint. Ideal for a wide range of projects requiring hidden fixings and the ability to easily remove panels.

The Button-fix™ Advantage: Invisible Strength

The Button for CSK Wood Screw is specifically designed to be attached to your *sub-frame* or *background structure* using a standard countersunk wood screw. Its robust polymer design then securely receives the mating Button-fix Fix (attached to the panel), creating a powerful mechanical lock.

- **Invisible:** Once clicked, the entire fixing system is completely concealed.
- **Strong:** Independently tested for high load-bearing capacity.
- **Removable:** Panels can be easily taken down and replaced for maintenance or design changes.

Frequently Asked Questions (FAQs)

Q: What is the Button-fix Button for CSK Wood Screw compatible with?

A: This button is designed for use with a **5mm diameter countersunk (CSK) wood screw**. It is the essential mating component for the **Button-fix Type 1 Fix** (for strength and slide-down/sideways engagement) and the **Button-fix Type 3 Fix** (for push-on/pull-off engagement).

Q: Can this Button be used for heavy panels or cantilevered loads (like shelving)?

A: Yes, when paired with the **Button-fix Type 1 Fix**, the system offers **exceptional strength** and is highly recommended for applications involving **cantilever loading** (e.g., hanging shelves) or large, **heavy wall panels**. Always consult the official load-testing data.

Q: Is Button-fix difficult to align during installation?

A: No. Button-fix is renowned for its **fitter-friendly** design. For **perfect alignment**, use the optional **Button-fix Marker accessory** (sold separately).

This ingenious tool marks the precise location of the mating Fix, eliminating the need for complex measurements or guesswork.

Q: What is the main material of the Button?

A: The button is molded from a **30% glass-filled nylon PA6 polymer composite**, ensuring its **durability** and resistance to temperature variations.

Button-fix™ vs. Competitor Panel Clips

Feature	Button-fix™ (CSK Button)	Traditional Clips
Ease of Installation	Very High (Simple slide-and-click or push-on engagement, use with Marker tool)	Moderate (Requires precise measurement and routing/rebating)
Panel Removal	Simple Demounting (Panel slides off or pulls off quickly)	Can be stiff (May require specific tools or force to disengage)
Strength/Durability	Extremely Strong (Tested, robust glass-filled nylon)	Strong (But plastic versions can be prone to snapping if misaligned)
Ideal For	High-Traffic/Removable panels (Access panels, exhibition stands, furniture)	Permanent/Static panels (Cabinet backs, decorative cladding)

Button-fix™ offers a more **versatile, faster, and more forgiving installation process** than traditional alternatives, making it the **modern professional's choice** for **concealed panel fixing**.
