

Button-fix™ – Button for Euro Screw – Pack of 100

Variant code: 171-002-2

The **Button-fix™ Button for Euro Screws** is the genuine mating component of the award-winning Button-fix™ concealed panel fixing system. Supplied as a **pack of 100**, these precision-engineered buttons are specifically designed for installation with **Euro (Varianta) screws**, providing a strong, secure and completely hidden connection when used with compatible **Button-fix™ Fixes** (sold separately).

Designed for cabinet construction and furniture manufacturing, the Button attaches securely to cabinet panels or carcasses using standard Euro screws, creating a reliable mechanical connection that remains completely concealed once engaged. When paired with the appropriate Button-fix™ Fix, panels can be installed quickly and removed easily whenever maintenance, servicing or future modifications are required.

Manufactured from durable engineering-grade polymer and made in the UK, the Button-fix™ Button for Euro Screws offers long-lasting performance and a professional invisible fixing solution for residential, commercial and retail installations.
