

Button-fix™ – Type 1 – Fix + Button for CSK Wood Screw – Each

Variant code: 171-001-11-EACH

The **Button-fix™ Type 1 Fix & Button for Countersunk (CSK) Wood Screws** is the original award-winning concealed panel fixing system, providing an exceptionally strong, secure and completely hidden method of mounting removable panels. Engineered for professional cabinet makers, shopfitters, furniture manufacturers and DIY enthusiasts, the Type 1 system combines high load-bearing performance with a simple slide-and-click installation for a flawless finish.

Manufactured in the UK from durable **30% glass-filled Nylon PA6**, the Type 1 Fix and matching Button create a robust concealed connection that is ideal for heavy-duty wall panels, shelving, furniture and commercial installations. The innovative engagement system allows panels to be installed either vertically or sideways, making it perfect where overhead installation clearance is limited. Surface mounting creates an 8mm panel gap, while semi-rebated installation reduces this to just 3mm for an even cleaner appearance.

Please note: This product includes **1 x Type 1 Fix** and **1 x Button for Countersunk (CSK) Wood Screws**. Screws are not included and should be selected to suit your installation substrate.

Product Features

- Complete Button-fix™ Type 1 Fix and Button set
- Designed for Countersunk (CSK) Wood Screws
- Award-winning concealed panel fixing system
- High-strength slide-and-click engagement
- Allows vertical (drop-down) or sideways installation
- Invisible fixing once assembled
- Surface-mounted or semi-rebated installation options
- Manufactured from 30% glass-filled Nylon PA6
- Minimum recommended panel thickness

- of 10mm
- Made in the UK

Product Benefits

- **Provides an exceptionally strong concealed fixing for heavy-duty panel installations**
- **Creates a premium, screw-free finish with completely hidden fixings**
- **Panels can be quickly installed, removed and refitted for maintenance or future access**
- Sideways engagement removes the need for large overhead installation clearance
- Ideal for cantilevered applications such as shelving and display units
- Offers flexible installation with surface or semi-rebated mounting
- Durable glass-filled nylon construction delivers long-lasting professional performance
- Suitable for commercial, residential and bespoke joinery projects
