

Button-fix™ – Type 1 – Fix Pad for Bonded Fix – Pack of 12

Variant code: 171-017-2

The **Button-fix™ Type 1 Fix Pad for Bonded Fix** is a self-adhesive mounting pad designed to simplify the installation of the **Button-fix™ Type 1 Bonded Fix**. Supplied as a **pack of 12**, these Fix Pads provide a fast and convenient solution for light-duty applications where rapid assembly is a priority, eliminating the need for structural adhesives during installation.

Ideal for temporary installations, lightweight panels and display applications, the self-adhesive pads securely attach the Type 1 Bonded Fix to the panel surface while maintaining the concealed, removable benefits of the Button-fix™ system. For optimum performance, Button-fix™ recommends using the Fix Pads with the **rebated installation configuration**, ensuring the best possible bond and alignment.

Perfect for exhibition displays, point-of-sale units and lightweight interior panelling, the Type 1 Fix Pad offers a clean, efficient installation method while maintaining the professional appearance of the Button-fix™ concealed fixing system.
