

Button-fix™ – Type 1 – Metal Flush Fix + Button for CSK Wood Screw – Pack of 50

Variant code: 171-021-11

The **Button-fix™ Type 1 Metal Flush Fix & Button for Countersunk (CSK) Wood Screws** is the premium concealed fixing solution for demanding applications where performance, durability and safety cannot be compromised. Supplied as a **pack of 50 complete Fix and Button sets**, this heavy-duty system provides an exceptionally strong, fully concealed and removable panel connection, making it ideal for specialist environments requiring enhanced fire performance and resistance to vibration.

Designed to deliver the same proven **slide-and-click** engagement as the original Button-fix™ Type 1 system, the Metal Flush version offers superior reliability in applications where panels are frequently removed or exposed to challenging operating conditions. The flush-mounted design creates a clean, seamless appearance while allowing quick removal for maintenance, servicing or inspection.

Suitable for use with **Countersunk (CSK) Wood Screws** (not supplied), the Type 1 Metal Flush system is the preferred concealed fixing solution for fire-retardant installations, marine interiors, transport applications and commercial environments where safety, strength and long-term performance are essential.

Product Features

- Complete Button-fix™ Type 1 Metal Flush Fix and Button set
- Supplied as a pack of 50
- Designed for Countersunk (CSK) Wood Screws
- Heavy-duty concealed flush fixing system
- Secure slide-and-click engagement
- Fully removable panel fixing
- Flush installation with concealed appearance
- Engineered for demanding commercial and specialist applications
- Suitable for panels subjected to vibration and repeated removal

- Made in the UK

Product Benefits

- **Provides exceptional strength where performance and reliability are critical**
- **Creates a completely concealed flush finish with no visible fixings**
- **Allows quick removal and reinstallation for servicing and maintenance**
- Ideal for fire-retardant and fire-sensitive environments
- Excellent performance in applications exposed to vibration or shock loading
- Suitable for marine, transport and commercial interiors
- Designed for installations where panels are removed repeatedly
- Professional concealed fixing solution manufactured to the highest standards

Technical Characteristics
