

Button-fix™ – Type 2 – Fix + Button for 90° Panels – Pack of 100

Variant code: 171-004-21

The **Button-fix™ Type 2 Fix & Button for Euro Screws** is an award-winning concealed fastening system designed specifically for **90° panel-to-frame connections**. Ideal for removable access panels, bath panels, cabinetry and furniture, this complete fixing set provides a secure push-and-click connection while keeping all hardware completely hidden for a clean, professional finish.

Unlike traditional panel fixings, the Type 2 system features a unique **straight push-on engagement**, allowing panels to be installed and removed without requiring clearance above or to the sides. This makes it the perfect solution for access panels concealing plumbing, electrical services or appliances where repeated removal is required. The Fix is manufactured from durable **DuPont Zytel® Nylon 66**, while the blue Button is moulded from **30% glass-filled Nylon PA6**, providing exceptional strength and long-term reliability.

Designed for installation using **Euro screws** (not supplied), the Button-fix™ Type 2 system is suitable for professional joinery, shopfitting, furniture manufacture and residential projects requiring invisible, removable panel fixings.

Product Features

- Complete Button-fix™ Type 2 Fix and Button set
- Designed for 90° panel-to-frame connections
- Button suitable for Euro screw installation
- Straight push-and-click engagement
- Completely concealed fixing once assembled
- Quick and tool-free panel removal for maintenance access
- Surface-mounted installation
- Fix manufactured from DuPont Zytel® Nylon 66
- Button manufactured from 30% glass-filled Nylon PA6
- Minimum recommended panel thickness: 10mm
- Made in the UK

Product Benefits

- **Creates a completely invisible fixing for removable panels and cabinetry**
- **Straight push-on installation requires no clearance above or beside the panel**
- **Allows fast removal and refitting for plumbing, electrical or appliance access**
- Suitable for repeated panel removal without damaging the installation
- High-strength engineering polymers provide reliable long-term performance
- Ideal for confined spaces where traditional fixings cannot be used
- Professional concealed finish enhances premium furniture and interiors
- Compatible with Euro screw cabinet construction systems

Technical Characteristics

- Product Type: Concealed Panel Fastener
- System: Button-fix™ Type 2
- Contents: 1 x Type 2 Fix and 1 x Type 2 Button
- Button Compatibility: Euro Screws (Not Included)
- Connection Type: 90° (Perpendicular Panel to Frame)
- Engagement: Straight Push & Click
- Installation: Surface Mounted
- Fix Material: DuPont Zytel® Nylon 66 (Charcoal Black)
- Button Material: 30% Glass-Filled Nylon PA6 (Blue)
- Minimum Panel Thickness: 10mm
- Typical Load Capacity: Up to 50–60kg per panel (using 4 correctly installed fixings)
- Country of Manufacture: United Kingdom

Applications

The **Button-fix™ Type 2 Fix & Button for Euro Screws** is ideal for **bath panels, shower access panels, plumbing and electrical service panels, radiator covers, pipe boxing, removable cabinetry, demountable furniture, acoustic wall panels, light boxes, retail displays and bespoke joinery**. Its concealed push-and-click design provides fast access, secure fixing and a premium screw-free appearance, making it the preferred solution for professional installations requiring regular panel removal.
