

Button-fix™ – Type 2 – Fix for 90° Panels – Pack of 100

Variant code: 171-004-1

The **Button-fix™ Type 2 Fix for 90° Panels (No Button)** is the fixing component of the award-winning Button-fix™ concealed panel fastening system, specifically engineered for removable panels mounted at a **90° angle** to a frame or cabinet carcass. Supplied as a **pack of 100 Fixes**, this component is designed for use with compatible **Button-fix™ Type 2 Buttons** (sold separately), providing a secure, hidden and easily removable panel fixing solution.

Featuring a straight **push-and-click** engagement, the Type 2 Fix allows panels to be installed and removed without requiring clearance above or beside the panel. This makes it the ideal choice for concealed access panels where plumbing, electrical wiring or other services require regular inspection or maintenance. Manufactured from high-performance engineering polymer, the Type 2 Fix delivers reliable strength and long service life in both commercial and residential applications.

Perfect for removable furniture panels, bath panels and architectural installations, the Button-fix™ Type 2 system combines fast installation with a completely concealed professional finish.

Product Features

- Genuine Button-fix™ Type 2 Fix component
- Supplied as a pack of 100
- Fix component only (Button sold separately)
- Designed for 90° panel-to-frame connections
- Straight push-and-click engagement
- Completely concealed fixing once assembled
- Quick panel installation and removal
