Cabin Hook - 4" - Polished Brass

Variant code: 83548

Our range of cabin hooks are ideal for safely holding open doors and windows. Most commonly used on external patio or french doors, they can also be used to secure shutters in place or keep cupboard doors closed.

Our cabin hook is forged from solid brass which emphasises the high quality materials and manufacturing techniques used. A perfect design choice for internal or external doors with matching products available.

- Available in four different sizes.
- Supplied with matching SS wood screws.

Made from solid unlacquered brass, this finish is both classic and simplistic and offers great possibilities for stately and period dwellings alike, particularly where a very traditional look is desired. When fully polished this finish has a depth of reflection. However, as the product is unlacquered this can also be left to age naturally, which over time will create a beautifully historic finish.

Property	Value
Finish	Polished Brass
Range	Cast
Overall Length (mm)	100
