

Cam Strip Brush Seal 14mm – Brush size 10mm – 2m Length

Variant code: CSNO.1/14MM/2M

The brush filaments are extruded from type 6 nylon and are hard wearing with a good memory. They have a working temperature range from -40°C to $+100^{\circ}\text{C}$. The standard backing material is electro galvanised steel, but stainless steel is available on request and to special order.
