Cast Suffolk Latch - Black

Variant code: 73264M

Traditionally used on a ledge and braced door, a suffolk latch set is a decorative door latch with a thumb shaped lever. When the thumb shaped lever is pressed down this operates a thumb bar which passes through the door, this lifts the latch bar on the opposite side causing it to open.

A decorative cast thumblatch with backplate.

Thumblatches are usually used in conjunction with a tee hinge on traditional plank doors.

Maximum door thickness: 44mm.

Supplied with matching SS wood screws.

Our black finish is a popular choice in traditional settings, it has a subtle sheen and offers a bold contrast on both stained and painted timber alike. It is baked in a high-temperature oven giving it durable corrosion resistant properties.

Property	Value
Finish	Black
Width (mm)	45
Range	Suffolk
