

CD-VL3 VL Series Sample Panel A5

Variant code: CD-VL3

CD-VL3 VL Series A5 Sample Panel is a demonstration panel designed to showcase the performance and functionality of the **Fastmount VL Series concealed panel mounting system**. Manufactured in a convenient **A5 format**, this sample panel allows architects, designers, installers and customers to experience the secure fixing, simple installation and effortless panel removal offered by the Fastmount VL Series before specifying or installing the system on larger projects.

Designed as a practical demonstration tool, the sample panel illustrates how the VL Series concealed fixing system enables panels to be securely mounted while remaining fully removable for future maintenance and access. Its compact size makes it ideal for product presentations, showroom displays, sales demonstrations and installer training, providing a clear understanding of the system's operation and benefits.

As part of the award-winning Fastmount product range, the CD-VL3 Sample Panel demonstrates the innovative concealed fixing technology that has transformed panel installation across marine, transport, architectural and commercial fit-out industries. Panels can be removed and refitted repeatedly in any sequence while maintaining secure retention and precise alignment.

Product Features

- Genuine Fastmount VL Series demonstration panel
- A5 sample panel format
- Designed to demonstrate the VL Series concealed fixing system
- Compact and easy to transport
- Ideal for product demonstrations and customer presentations
- Suitable for installer training and specification purposes
- Professional demonstration tool
- Showcases removable concealed panel technology

Product Benefits

- **Demonstrates the operation and advantages of the Fastmount VL Series system**
- **Allows customers and installers to experience concealed panel fixing before specification**
- **Supports sales presentations, training and product demonstrations**
- Compact A5 size is easy to carry and display
- Helps explain panel installation and removal procedures
- Ideal for specification meetings and showroom displays
- Provides a professional demonstration of Fastmount technology
- Supports confident product selection for future projects

Technical Characteristics

- Product Type: Demonstration Sample Panel
- Model: CD-VL3
- Brand: Fastmount
- Series: VL Series
- Panel Size: A5
- Purpose: Product Demonstration and Training
- Application: Showcases Concealed Panel Mounting System

Applications

The **Fastmount CD-VL3 VL Series A5 Sample Panel** is ideal for **architects, interior designers, marine fit-out specialists, transport manufacturers, commercial joinery companies, exhibition contractors, distributors and showroom displays**.
