

Clip Top 155° Nil Protrusion Hinge inc Blumotion, Inserta Boss – Overlay – Sprung – Onyx Black

Variant code: 71B7590-OB

Dark furniture radiates sleek elegance. Hinges in onyx black discreetly complement furniture and create visual impact.

Featuring tool free hinge to door assembly through the INSERTA mechanism. Nil-protrusion hinges are for cabinet doors which require wide opening angles or contain inner pull-outs. The hinge ensures the drawer can pull forward past the door, unhindered. A nylon stop is required, to restrict the opening angle of the hinge to 110°, if cabinet sides are 23mm up to 34mm.

BLUMOTION gives silent and effortless soft closing function every time. High quality of motion even with small/light furniture doors, this function can be easily deactivated if required via a switch on the hinge boss.

- Hinge for door thickness 20 to 24mm
*can be up to 31mm if combined with a 92° opening angle stop
- Application: Overlay
- Opening angle: 155°
- BLUMOTION soft close built in
- Boss type: INSERTA
- Hinge material: Steel/Onyx black
- Closing mechanism: With spring

Three-dimensional adjustment: +/-2mm side and +3/-2mm depth adjustment via spiral screw. CLIP top hinges combined with Blum's wide range of mounting plates offer height adjustment. CLIP top mechanism removes the need to screw the hinge to the plate.
