Blum Clip Top Hinge +45° Half Overlay BLUMOTION Sprung - Nickel - Screw-on

Variant code: 79B9658

Blum CLIP top Hinge - 45° Half Overlay BLUMOTION Sprung - Nickel is designed for cabinet doors installed in angled cabinet constructions where specialised hinge geometry is required to achieve correct door positioning and smooth operation. Part of the **Blum CLIP top BLUMOTION hinge system**, this hinge integrates soft-close technology directly within the hinge mechanism, ensuring controlled and quiet door closing without the need for additional damping components. Manufactured to Blum's precision engineering standards, it delivers reliable performance in cabinetry where angled hinge configurations are required.

The hinge features a **45° hinge geometry**, making it suitable for cabinets installed on angled or diagonal layouts commonly used in corner cabinetry and bespoke furniture designs. Designed for **half overlay cabinet door configurations**, it allows adjacent doors to share a central cabinet panel while maintaining balanced alignment and consistent reveals. The hinge clips securely onto compatible Blum mounting plates using the **tool-free CLIP top system**, enabling efficient installation and straightforward removal during adjustment or maintenance.

Manufactured from durable steel with a **nickel-plated finish**, the hinge provides corrosion resistance and a clean, neutral appearance suitable for most cabinet interiors. The hinge cup is **compatible with different boss fixing types depending on the selected variant**, allowing flexibility during installation based on cabinet material and manufacturing requirements.

Product Features

- **45° hinge geometry** for angled cabinet installations
- Integrated **BLUMOTION soft-close mechanism**
- Designed for **half overlay cabinet door applications**
- Compatible with **multiple boss fixing types depending on variant**

- Durable **nickel-plated finish**
- **Tool-free CLIP hinge attachment**
- **Three-dimensional adjustment capability**

Product Benefits

- Provides smooth and quiet **soft-closing door operation**
- Enables hinge installation on **angled cabinet constructions**
- Supports cabinet layouts using **shared centre panels**
- Allows flexible installation through **different boss fixing options**
- Ensures precise door alignment and consistent reveals
- Suitable for residential and light commercial cabinetry

Technical Characteristics

- Requires compatible **Blum CLIP top mounting plates**
- Designed to support **different boss fixing types depending on variant**
- Adjustable vertically, laterally and in depth
- Steel hinge construction with **nickel-plated protective finish**
- Suitable for **angled cabinet door constructions**
- Correct hinge and mounting plate pairing ensures optimal performance

Applications

Suitable for **half overlay cabinet doors** used in angled cabinet constructions such as corner units, diagonal cabinets and bespoke furniture installations. The **45° hinge geometry** allows correct door positioning in cabinets where angled layouts are required. The integrated **BLUMOTION soft-close mechanism** ensures controlled and quiet door closing, while compatibility with **different boss fixing types depending on variant** allows installation across a range of cabinet materials and manufacturing methods. The **nickel-plated finish** provides durability and a neutral appearance suited to most cabinetry interiors.
