

Blum Clip Top Hinge – 95° Thick Door Half Overlay Sprung – Nickel – Screw-on

Variant code: 71T9650

Blum CLIP top Hinge – 95° Thick Door Half Overlay Sprung – Nickel is designed for cabinet doors with increased thickness where standard hinge geometry may not provide adequate clearance or alignment. Manufactured by **Blum**, a globally recognised specialist in precision cabinet hardware, this hinge forms part of the dependable **CLIP top hinge system**, engineered to deliver reliable performance alongside efficient installation and adjustment. The integrated sprung mechanism ensures consistent self-closing action, allowing cabinet doors to close smoothly and securely during everyday use.

The hinge incorporates a **95° opening angle**, providing controlled cabinet access while maintaining stable hinge movement in thicker door applications. Designed for **half overlay cabinet door configurations**, the hinge allows two cabinet doors to share a central cabinet panel while maintaining consistent door gaps and alignment. The hinge clips securely onto compatible Blum mounting plates using the **tool-free CLIP top attachment system**, enabling quick installation and straightforward removal when adjustment or maintenance is required.

Manufactured from durable steel with a **nickel-plated finish**, the hinge offers corrosion resistance and a clean, neutral appearance suitable for a wide range of cabinetry styles. The hinge cup is **compatible with different boss fixing types depending on the selected variant**, allowing installation flexibility based on cabinet material, drilling preparation and manufacturing requirements.

Product Features

- **95° opening angle** designed for thick door cabinet installations
- Integrated **sprung self-closing mechanism**
- Designed for **half overlay cabinet door applications**
- Specialised geometry for **thick cabinet doors**

- Compatible with **multiple boss fixing types depending on variant**
- Durable **nickel-plated steel construction**
- **Tool-free CLIP top hinge attachment**
- **Three-dimensional adjustment capability**

Product Benefits

- Provides reliable **self-closing hinge performance**
- Allows installation on **thicker cabinet doors** without compromising hinge movement
- Supports efficient cabinet layouts using **shared centre panels**
- Enables installation flexibility through **different boss fixing options**
- Ensures accurate door alignment and consistent reveals
- Suitable for residential and light commercial cabinetry

Technical Characteristics

- Requires compatible **Blum CLIP top mounting plates**
- Supports **different boss fixing types depending on variant**
- Adjustable vertically, laterally and in depth
- Steel hinge construction with **nickel-plated protective finish**
- Designed for integration within **Blum cabinet hardware systems**
- Correct hinge and mounting plate pairing ensures optimal hinge performance

Applications

This hinge is suitable for **half overlay cabinet doors with increased thickness** used in kitchens, wardrobes, storage units and bespoke furniture installations. The specialised hinge design accommodates thicker door constructions while maintaining stable movement and reliable closing performance. The integrated **sprung mechanism** ensures dependable self-closing operation, while compatibility with **different boss fixing types depending on variant** allows installation across a range of cabinet materials and production methods.

Property	Value
Finish	Nickel
Opening angle (°)	95
Application	Half Overlay
Boss	Screw-on
Closing Mechanism	Sprung
Boss Drilling Depth (mm)	12.3
Max Door Thickness (mm)	32
Hinge Type	Profile Door
