

Blum Clip Top Cover Cap – Hinge Boss for Sprung and Unsprung Hinges – Nickel

Variant code: 70T3504-NI

Blum CLIP top Cover Cap – Hinge Boss for Sprung and Unsprung Hinges is designed to provide a clean and professional finish to cabinet hinge installations by concealing the visible hinge boss on compatible **Blum CLIP top hinges**. Manufactured by **Blum**, a globally recognised specialist in cabinet hardware, this cover cap improves the internal appearance of cabinetry while maintaining full compatibility with both **sprung and unsprung CLIP top hinge systems**.

The cover cap fits securely over the **hinge boss fixing area**, neatly covering exposed hinge components to create a streamlined cabinet interior. By concealing the hinge boss mechanism, it enhances the visual presentation of cabinet hardware and contributes to a more refined and professional finish inside the cabinet.

Designed for quick installation, the cap **clips directly onto the hinge boss** without requiring tools or additional fasteners. This allows installers to complete hinge installations efficiently while still maintaining access to hinge components when adjustments or maintenance are required.

The cover cap is available in **Nickel and Onyx Black finishes**, allowing the hardware to coordinate with different hinge finishes and cabinet design styles. The **Nickel finish** provides a neutral appearance suited to a wide variety of cabinetry, while the **Onyx Black finish** complements modern cabinetry schemes and dark hardware specifications. Manufactured from durable materials, the cap is designed to withstand everyday cabinet use while maintaining a clean appearance.

Product Features

- Designed for **Blum CLIP top sprung and unsprung hinges**
- Conceals the **hinge boss fixing area** for a clean cabinet interior
- **Clip-on installation** for fast and simple

fitting

- Compatible with the **Blum CLIP top hinge system**

- **Clip-on mounting design** for easy installation
- Compatible with **Blum CLIP top sprung and unsprung hinges**
- Available in **Nickel and Onyx Black finishes**
- Durable construction suitable for cabinet interiors
- Designed to integrate within the **Blum hinge system platform**

Applications

This cover cap is used to complete **Blum CLIP top**

hinge installations in kitchens, wardrobes, storage cabinets and fitted furniture where a clean and professional cabinet interior is required. By covering the hinge boss fixing area, it improves the visual finish of cabinet hardware while maintaining full hinge functionality. It is commonly specified in **residential and commercial joinery projects**, including kitchens, bedrooms and office storage systems where coordinated cabinet hardware and attention to finishing details are important.
