Blum Clip Top Mounting Plate - Cruciform Cam with Split Expando Dowels - Nickel - 0mm

Variant code: 174H710ZE

Blum Clip Top Mounting Plate - Cruciform Cam with Split Expando Dowels - Nickel is designed to provide secure and accurately aligned hinge fixing within the Blum CLIP top system. Designed for seamless compatibility with CLIP top hinges, this mounting plate ensures stable attachment and precise door positioning across a wide range of cabinet constructions. Manufactured from durable steel with a protective **nickel-plated finish**, it delivers dependable performance in residential and light commercial cabinetry.

The **cruciform mounting plate design** ensures consistent positioning and strong retention to the cabinet side panel. Featuring the **EXPANDO fixing system**, the plate is designed for secure anchoring into prepared drilling, offering reliable hold while maintaining installation efficiency. The selectable **plate height** forms part of the hinge offset calculation and determines the final door position and reveal. Selecting the appropriate height ensures accurate alignment when paired with the correct hinge and cabinet specification.

Designed for use with **Blum CLIP top hinges**, the plate supports tool-free hinge attachment and removal. This enables efficient installation, straightforward adjustment and secure engagement within the hinge system, contributing to smooth door operation and long-term structural stability.

Product Features

- Designed for **Blum CLIP top hinge systems**
- **Cruciform mounting plate configuration**
- **EXPANDO fixing system** for secure anchoring
- Selectable **plate height options**
- Durable **nickel-plated steel finish**

- Compatible with tool-free CLIP top hinge attachment
- Engineered for stable cabinet side panel fixing
- Adjustable for precise door alignment

Product Benefits

- Ensures secure and reliable hinge mounting
- Supports accurate door positioning and consistent reveals
- Allows correct overlay calculation through height selection
- Provides strong retention within cabinet panels
- Enables efficient installation and adjustment
- Suitable for residential and light commercial cabinetry

Technical Characteristics

- Plate height selection determines hinge offset
- EXPANDO fixing requires correctly prepared cabinet side drilling
- Designed for use with compatible Blum CLIP top hinges
- Adjustable height correction capability
- Steel construction with protective nickel finish
- Correct hinge and plate pairing ensures optimal door performance

Applications

This mounting plate is intended for cabinet installations requiring secure EXPANDO fixing within the Blum CLIP top hinge system. The selectable **height configuration** makes it suitable
