Blum Clip Top Mounting Plate - Cruciform Cam Adjustable Screw-on with Elongated Hole - Nickel - 0mm

Variant code: 173L6100

Blum Clip Top Mounting Plate - Cruciform Cam Adjustable Screw-on with Elongated Hole - Nickel is designed to provide a secure fixing point for Blum CLIP top hinge systems. Engineered for reliable installation and consistent alignment, this cruciform mounting plate ensures stable hinge attachment within cabinet constructions.

Available in **0mm and 3mm height configurations**, the mounting plate allows the correct hinge offset to be selected according to cabinet design and overlay calculation. The integrated **elongated screw holes** allow lateral adjustment during installation, supporting accurate positioning and clean, consistent door reveals.

Manufactured from steel with a durable **nickel-plated finish**, this mounting plate integrates seamlessly within the Blum hinge platform and delivers dependable long-term performance in both residential and light commercial cabinetry.

Product Features

- Designed for **Blum CLIP top hinge systems**
- **Cruciform mounting plate** configuration
- Available in **0mm and 3mm heights**
- **Elongated screw holes** for lateral adjustment
- Durable **nickel-plated steel construction**
- Secure screw fixing to cabinet side panel
- Compatible with tool-free CLIP top hinge attachment

Product Benefits

- Provides stable hinge attachment
- Allows precise positioning during installation
- Supports accurate door alignment and consistent reveals
- Offers flexibility across cabinet constructions

- Ensures reliable long-term cabinet performance

Technical Characteristics

- Fixed mounting heights of **0mm or 3mm**
- Requires pairing with compatible Blum CLIP top hinges
- Elongated holes allow horizontal positioning adjustment
- Steel construction with protective nickel finish
- Designed for screw fixing to cabinet side panel
- Correct hinge and plate selection ensures optimal operation

Applications

This mounting plate is suitable for cabinet installations requiring fixed height positioning with lateral adjustment capability. It is commonly specified in kitchens, storage units and fitted furniture where reliable hinge attachment and accurate door alignment are essential. Multiple height options allow specification according to overlay requirements and cabinet construction.
