Blum Clip Top Cover Cap - Hinge Boss for Blumotion Hinges - Onyx Black

Variant code: 70T7504-OB

Blum CLIP top Cover Cap - Hinge Boss for BLUMOTION Hinges is designed to provide a neat and professional finish to cabinet hinge installations by concealing the hinge boss on compatible **Blum CLIP top BLUMOTION hinges**. Manufactured by **Blum**, a globally recognised specialist in cabinet hardware, this cover cap improves the visual appearance of cabinet interiors while maintaining full compatibility with hinges incorporating **integrated BLUMOTION soft-close technology**.

The cover cap fits securely over the **hinge boss fixing point**, covering exposed hinge components to create a clean and refined cabinet interior. By concealing the hinge boss mechanism, it enhances the overall presentation of cabinet hardware and contributes to a more polished finish inside the cabinet.

Designed for efficient installation, the cap **clips directly onto the hinge boss** without the need for additional tools or fasteners. This enables installers to quickly complete hinge installations while still maintaining access to hinge components when adjustments or maintenance are required. As part of the **Blum CLIP top hinge system**, the cover cap integrates seamlessly with compatible BLUMOTION hinges used across a wide range of cabinetry applications.

The cover cap is available in **Nickel and Onyx Black finishes**, allowing hardware to coordinate with a variety of hinge finishes and cabinet design styles. The **Nickel finish** provides a neutral appearance suited to most cabinetry installations, while the **Onyx Black finish** complements contemporary cabinet interiors and darker hardware specifications. Manufactured from durable materials, the cover cap is designed to withstand everyday cabinet use while maintaining a clean and consistent appearance.

Product Features
