Blum Clip Top Cover Cap - Hinge Boss for Sprung and Unsprung Hinges - Nickel

Variant code: 70T1504-NI

Blum CLIP top Cover Cap - Hinge Boss for Sprung and Unsprung Hinges is designed to provide a clean and professional finish to cabinet hinge installations by concealing the visible hinge boss on compatible **Blum CLIP top hinges**. Manufactured by **Blum**, a globally recognised specialist in cabinet hardware, this cover cap enhances the internal appearance of cabinetry while maintaining full compatibility with both **sprung and unsprung CLIP top hinge systems**.

The cover cap fits securely over the **hinge boss area**, neatly covering exposed fixing components to create a streamlined cabinet interior. By concealing the hinge boss mechanism, it improves the overall presentation of cabinet hardware and contributes to a more refined and professional internal cabinet finish.

Designed for straightforward installation, the cover cap **clips directly onto the hinge boss** without requiring additional tools or fixings. This enables installers to complete hinge installations efficiently while still maintaining access to hinge components for adjustment or servicing when required.

The cover cap is available in **Nickel and Onyx Black finishes**, allowing the hardware to coordinate with different hinge finishes and cabinet design styles. The **Nickel finish** provides a neutral appearance suited to traditional and contemporary cabinetry, while the **Onyx Black finish** complements modern cabinetry schemes and black hinge hardware. Manufactured from durable materials, the cover cap is designed to withstand everyday cabinet use while maintaining its appearance over time.

Product Features

- Designed for **Blum CLIP top sprung and unsprung hinges**
- Conceals the **hinge boss fixing area** for a clean cabinet interior
- **Clip-on installation** for quick and simple
