Blum Clip Top Mounting Plate - Inline Cam Adjustable Expando - Nickel - 0mm

Variant code: 177H5400E

Blum Clip Top Mounting Plate - Inline Cam Adjustable Expando - Nickel is engineered to provide secure and precisely aligned hinge fixing within the Blum CLIP top system. Designed for seamless integration with compatible CLIP top hinges, this mounting plate ensures stable attachment and accurate door positioning across a wide range of cabinet constructions. Manufactured from durable steel with a protective **nickel-plated finish**, it delivers dependable long-term performance in both residential and light commercial cabinetry.

The **inline mounting configuration** allows direct alignment with the cabinet side panel, maintaining consistent hinge geometry and clean installation. Featuring a **cam adjustment mechanism**, the plate enables fine on-site height correction to achieve precise door alignment and consistent reveals. The integrated **Expando fixing system** is designed for secure anchoring into prepared cabinet side drilling, expanding within the panel to provide strong mechanical retention.

The **0mm height configuration** provides a neutral hinge offset between the cabinet side and hinge arm. When paired with the correct Blum CLIP top hinge and cabinet specification, this ensures accurate overlay calculation, precise door projection and smooth hinge operation.

Product Features

- Designed for **Blum CLIP top hinge systems**
- **Inline mounting plate configuration**
- **Cam adjustable** for precise height correction
- Integrated **Expando fixing system**
- **0mm height configuration**
- Durable **nickel-plated steel finish**
- Compatible with **tool-free CLIP top hinge attachment**

Product Benefits

- Ensures stable and secure hinge

mounting
- Allows efficient on-site door alignment via cam adjustment
- Provides strong retention with Expando anchoring
- Supports accurate door positioning and consistent reveals
- Integrates seamlessly within the Blum hinge platform
- Suitable for residential and light commercial cabinetry

Technical Characteristics

- **Omm plate height** determines final hinge positioning
- Expando fixing requires correctly prepared cabinet side drilling
- Cam mechanism enables precise vertical adjustment
- Designed for use with compatible **Blum CLIP top hinges**
- Steel construction with protective nickel finish
- Correct hinge and plate pairing ensures optimal door performance

Applications

This mounting plate is intended for cabinet installations requiring a **Omm hinge offset** within the Blum CLIP top system. It is commonly specified in overlay cabinet constructions where precise door projection and alignment are essential. Suitable for kitchens, bedrooms, storage units and bespoke fitted furniture, the combination of **cam adjustment** and **Expando fixing** makes it particularly appropriate for professional installations requiring efficiency, precision and secure anchoring.
