Blum Clip Top Cover Cap - Straight Hinge Arm - Onyx Black

Variant code: 70.4503-OB

Blum CLIP top Cover Cap - Straight Hinge Arm is designed to provide a clean and professional finish to cabinet hinge installations by concealing the exposed hinge arm on compatible **Blum CLIP top hinges**. Manufactured by **Blum**, a globally recognised specialist in cabinet hardware, this cover cap enhances the appearance of cabinetry while maintaining full compatibility with the CLIP top hinge system.

The cover cap fits securely onto **straight hinge arms**, neatly covering the visible hinge mechanism to create a streamlined cabinet interior. By concealing functional hinge components, it improves the overall presentation of cabinet hardware and contributes to a more refined internal cabinet finish.

Designed for quick installation, the cover cap **clips directly onto the hinge arm** without requiring additional tools or fixings. This allows installers to complete hinge installations efficiently while maintaining easy access to hinge adjustments or servicing when required.

The cover cap is available in **Nickel and Onyx Black finishes**, allowing the hardware to coordinate with different hinge finishes and cabinet design styles. The **Nickel finish** provides a clean, neutral appearance suited to traditional and contemporary cabinetry, while the **Onyx Black finish** complements modern dark cabinetry schemes. Manufactured from durable materials, the cover cap is designed to withstand everyday cabinet use while maintaining its appearance over time.

Product Features

- Designed for **Blum CLIP top hinges with straight hinge arms**
- Conceals visible hinge arm components for a **clean cabinet interior finish**
- **Clip-on installation** for quick and easy fitting
