Blum Clip Top Cover Cap - Straight Hinge Arm - Onyx Black

Variant code: 70.1553-OB

Blum CLIP top Cover Cap - Straight Hinge Arm - Onyx Black is designed to provide a clean and refined finish to cabinet hinge installations by concealing the exposed hinge arm on compatible **Blum CLIP top hinges**. Manufactured by **Blum**, a globally recognised specialist in cabinet hardware, this cover cap enhances the visual appearance of cabinetry while maintaining full compatibility with the CLIP top hinge platform.

The cover cap fits securely onto **straight hinge arms**, neatly covering the hinge mechanism to create a streamlined cabinet interior. By concealing visible hinge components, it helps deliver a more professional and cohesive cabinet finish, particularly in installations where internal cabinet presentation is important.

Designed for simple installation, the cover cap **clips directly onto the hinge arm** without requiring tools or additional fixings. This allows installers to complete hinge installations quickly while maintaining easy access to the hinge for adjustment or maintenance when necessary.

Finished in **Onyx Black**, the cover cap supports coordinated hardware specification in contemporary cabinetry designs. The darker finish complements modern cabinet interiors and pairs well with **Onyx Black Blum hinges and hardware**, providing a consistent and visually balanced result. Manufactured from durable materials, the cap is designed to withstand everyday cabinet use while maintaining its appearance over time.

Product Features

- Designed for **Blum CLIP top hinges with straight hinge arms**
- Conceals exposed hinge arm components for a **clean cabinet interior**
- **Clip-on installation** for quick and easy fitting

SWS HARDWARE
