Blum Clip Top Cover Cap - Straight Hinge Arm - Nickel

Variant code: 70.1553-NI

Blum CLIP top Cover Cap - Straight Hinge Arm - Nickel is designed to provide a clean and professional finish to cabinet hinge installations by concealing the exposed hinge arm on compatible **Blum CLIP top hinges**. Manufactured by **Blum**, a globally recognised specialist in cabinet hardware, this cover cap enhances the visual appearance of cabinetry while maintaining full compatibility with the CLIP top hinge system.

The cover cap fits securely onto **straight hinge arms**, neatly covering the visible hinge mechanism to create a streamlined and refined cabinet interior. By concealing functional hinge components, the cap improves the overall presentation of cabinet hardware, particularly in installations where internal cabinet aesthetics are important.

Designed for simple installation, the cover cap **clips directly onto the hinge arm** without the need for tools or additional fixings. This allows installers to complete hinge installations quickly while maintaining easy access to the hinge for adjustment or servicing when required.

Finished in **Nickel**, the cover cap provides a neutral appearance that integrates seamlessly with standard **nickel-plated Blum CLIP top hinges** and other cabinet hardware. Manufactured from durable materials, the cap is designed to withstand everyday cabinet use while maintaining its appearance over time.

Product Features

- Designed for **Blum CLIP top hinges with straight hinge arms**
- Conceals visible hinge arm components for a **clean cabinet appearance**
- **Clip-on installation** for quick and easy fitting
- Compatible with the **Blum CLIP top hinge system**
