

Compact Stay – Soft Close – Medium Duty – Black

Variant code: CSD-10-TV-M-BL

Compact Soft Close Stay is a premium soft-down stay designed for **downward-opening flap doors**, providing controlled, quiet closing and smooth operation in a compact, space-saving design. Finished in **black** and rated for **medium-duty** applications, this stay is ideal for cabinets with short flap doors where reliable soft closing and minimal loss of storage space are essential.

Designed for simple installation, the stay aligns easily with the cabinet sides and is secured using screws when paired with **single-axis or drop hinges**. A dedicated mounting template simplifies accurate positioning of the mounting plate, reducing installation time. During closing, the integrated damper delivers a controlled soft-down action without creating resistance, while the **Type M** mechanism also incorporates a **lift assist function** to make opening the flap easier and more comfortable.

The stay features a **non-handed design**, allowing installation on either the left or right-hand side, while its low mounting position at the bottom of the cabinet helps maximise usable storage space. A matching cover conceals both the stay body and mounting plate, creating a clean, coordinated appearance that complements modern cabinetry.

Product Features

- Compact soft-close stay for downward-opening flap doors
- Medium-duty operation
- Black finish
- Integrated soft-down damper for controlled closing
- Lift assist function for easier opening (Type M)
- Suitable for use with single-axis and drop hinges
