

Concealed Hinge – Inset – 93° Opening – Soft Close

Variant code: ACH07505

Concealed Soft Close Hinge is a premium concealed cabinet hinge designed for **inset doors**, offering a **93° opening angle** and an integrated soft-close mechanism for smooth, controlled door operation. Engineered for modern cabinetry, the hinge features Sugatsune's advanced **5-speed adjustable damper**, allowing the closing speed to be fine-tuned to suit different door sizes and applications. Its clip-on design and three-way adjustment simplify installation while ensuring precise door alignment.

Designed for cabinet doors up to **30mm thick**, the hinge delivers reliable performance for a wide range of residential and commercial furniture. With a load capacity of **6kg when using two hinges** or **10kg when using three hinges**, it is suitable for doors up to **600mm wide**. The integrated clip-on mechanism enables quick installation and removal, while three-way adjustment can be carried out with the door already fitted, reducing installation time and improving accuracy. Please note that the **mounting plate is sold separately**, and the **FFCB-HG-1 face frame cabinet bracket is not compatible** with this hinge.

Manufactured to Sugatsune's renowned quality standards, the Olympia Concealed Hinge provides exceptional durability, smooth soft-close performance and precise adjustment, making it an excellent choice for premium kitchens, wardrobes, office furniture and bespoke cabinetry.

Product Features

- Concealed soft-close hinge for inset cabinet doors
 - 93° opening angle
 - Integrated 5-speed adjustable soft-close damper
 - Clip-on design for quick installation and removal
 - Three-way adjustment with the door installed
