

19mm D' Pull Handle Bolt Through Fix – 150mm – Polished Stainless Steel

Variant code: 2005.19.150.BT.PSS

The **19mm D Pull Handle** is a robust architectural pull handle designed to provide reliable operation and a contemporary appearance for commercial and residential doors. Featuring a **19mm diameter tubular handle** with **150mm fixing centres**, this model is manufactured from high-quality stainless steel and finished in **Polished Stainless Steel (PSS)**, offering excellent durability and a sleek, modern aesthetic.

Supplied with **bolt-through fixings**, the handle provides a secure and stable installation for timber, metal and glazed doors where appropriate fixings are used. The polished stainless steel construction offers excellent resistance to everyday wear and corrosion, making it suitable for high-traffic environments. Alternative fixing methods are also available to purchase separately, providing flexibility to suit different installation requirements.

Ideal for new-build developments, commercial fit-outs and refurbishment projects, the 19mm D Pull Handle delivers dependable performance, professional styling and long-lasting durability across a wide range of architectural applications.
