

Damper Hinge Pair – Mortise Side Mount – Black

Variant code: HG-JHM14-S-15BL

Damper Hinge Pair is a concealed **mortise side-mount soft-closing hinge** designed to provide smooth, controlled door closing without the need for additional dampers or soft-close mechanisms. Supplied as a **pair** and finished in **Black**, these hinges offer a clean, discreet appearance while improving safety, comfort and durability in furniture and cabinetry applications.

Featuring an integrated soft-closing damper, the hinges gently decelerate the door during the final stage of closing, reducing impact, noise and wear on both the door and cabinet. Designed for mortise side mounting, they remain concealed when installed, creating a minimalist appearance suitable for contemporary furniture and interior designs.

Manufactured from high-quality materials for long-lasting performance, the hinge pair is suitable for doors weighing approximately **3.2kg to 5.9kg (7.0–13.0lbs)** when used as recommended. Their precision engineering ensures reliable operation and consistent soft-close performance throughout the product's service life.

Product Features

- Pair of concealed soft-closing damper hinges
- Mortise side-mount design
- Black finish
- Integrated soft-close damping mechanism
- Smooth, quiet door closing
- Concealed installation for a clean appearance
- Durable commercial-grade construction
