

Disabled Bathroom Turn & Release – Satin Anodised Aluminium

Variant code: 1405.16.SAA

Disabled Bathroom Turn & Release is a practical and durable privacy locking solution designed specifically for **accessible bathroom, WC and washroom doors**. Finished in **Satin Anodised Aluminium (SAA)**, this turn and release set combines reliable operation with a clean, contemporary appearance, making it ideal for commercial, public and residential accessible washroom installations.

Designed with a **52mm diameter rose** and a slim **8mm projection**, the set integrates a **vacant/engaged indicator** and is supplied complete with a **5mm spindle** for straightforward installation. The internal turn provides smooth privacy locking, while the external emergency release allows authorised access when required, helping to improve safety and accessibility. The satin anodised aluminium finish offers excellent resistance to everyday wear while coordinating seamlessly with matching aluminium architectural door furniture.

Suitable for both new installations and refurbishment projects, this disabled bathroom turn and release set delivers dependable performance, accessibility and modern styling for high-use environments.

Product Features
