Disabled Bathroom Turn & Indicator Set - Polished Stainless Steel

Variant code: 1405.16.PSS

Disabled Bathroom Turn & Indicator Set is a high-quality privacy locking solution designed specifically for **accessible bathroom, WC and washroom doors** in commercial, public and residential buildings. Finished in **Polished Stainless Steel (PSS)**, this turn and release set combines smooth operation with a clear occupancy indicator, helping to provide safe, convenient and user-friendly access for disabled and accessible facilities.

Designed with a **52mm diameter rose** and a slim **8mm projection**, the set offers a modern architectural appearance that coordinates seamlessly with matching stainless steel door furniture. The complete assembly includes **matching escutcheons**, an integrated **vacant/engaged indicator**, and a **5mm spindle**, providing everything required for a secure and professional installation. The external emergency release feature allows authorised access when required, while the internal turn provides simple and reliable privacy locking for everyday use.

Ideal for new installations and refurbishment projects, this disabled bathroom turn and indicator set offers a durable, corrosion-resistant and compliant solution for accessible washroom environments.

Product Features

- **Disabled bathroom turn & release set with indicator**
- Integrated **vacant/engaged occupancy indicator**
- Complete with **matching escutcheons**
