Disabled Bathroom Turn & Indicator Set - Satin Stainless Steel

Variant code: 1405.16.SSS

Disabled Bathroom Turn & Indicator Set is a premium privacy locking solution designed specifically for **accessible bathroom, WC and washroom doors** in commercial, public and residential buildings. Manufactured from **Grade 304 stainless steel** with a **Satin Stainless Steel (SSS)** finish, this turn and release set combines smooth operation with a clear occupancy indicator, providing a durable, safe and user-friendly solution for accessible washroom facilities.

Designed with a **52mm diameter rose** and a slim **8mm projection**, the set offers a contemporary architectural appearance that coordinates seamlessly with matching stainless steel door furniture. The complete assembly includes **matching escutcheons**, an integrated **vacant/engaged indicator**, and a **5mm spindle**, providing everything required for a secure and professional installation. The external emergency release enables authorised access when required, while the internal turn delivers smooth and reliable privacy locking for everyday use.

Combining high-quality Grade 304 stainless steel construction with a satin finish and dependable operation, this disabled bathroom turn and indicator set is an ideal solution for both new installations and refurbishment projects.
