

Domus Line AT6 Ultra D-M Flexible LED Tape – 24V – 10W/m – 6 x 6mm – Temperature Changing

Variant code: F0339000005

The **Domus Line AT6 ULTRA D-M Flexible LED Silicone Profile** is a compact furniture lighting solution featuring **D-Motion dual-colour technology**. Operating at **24VDC** with a power consumption of **10W/m**, this version provides a temperature-changing light output ranging from **2700K to 4000K**.

The AT6 ULTRA features **symmetrical light projection** and can be installed either **recessed or surface mounted**. For flush recessed installation, it fits into a compact milled groove measuring just **6mm wide and 6mm deep**. Domus Line recommends the profile for use on a wide variety of **furnishing elements**, while its high-strength **3M adhesive base** supports surface installation, with hooks and screws also provided for mechanical surface fixing.

Integrated **FREE-CUT technology** allows the AT6 ULTRA to be cut to the desired length at any point along the profile. The system also features **Plug & Play connectivity** and can be configured with a separately available power cable, back-to-back connector and end cap. The required **24VDC power supply is not included**.

Product Features

- **D-Motion dual-colour LED silicone micro profile**
- Provides adjustable colour temperature from **2700K to 4000K**
- Operates from a **24VDC power supply**
- Power consumption of **10W per metre**
- Compact recessed installation requiring a **6mm wide x 6mm deep milled groove**
- Suitable for **recessed or surface-mounted installation**
- Provides **symmetrical light projection**
- **FREE-CUT technology** allows the profile to be cut at any point
- Features a high-strength **3M adhesive base**

- Includes provision for **mechanical surface fixing with hooks and screws**
- Features a **Plug & Play connection system**
- Configurable with separately available **power cable, back-to-back connector and end cap**
- Supplied in a **white finish**

Product Benefits

- **D-Motion technology provides temperature-changing illumination between 2700K and 4000K**
- **FREE-CUT technology allows the profile to be cut precisely to the required length at any point**
- **Compact 6 x 6mm recessed installation enables discreet integration into furniture elements**
- Choice of **recessed or surface mounting** provides flexibility for different furniture designs
- High-strength **3M adhesive base** provides a practical option for surface installation
- Mechanical fixing using hooks and screws provides an **alternative surface mounting method**
- **Plug & Play connectivity** allows integration with compatible AT6 ULTRA connection accessories

Technical Characteristics

- **Product Type:** Flexible LED Silicone Micro Profile
- **Range:** AT6 ULTRA
- **Light Source:** Dual-Colour D-Motion
- **Voltage:** 24VDC
- **Power:** 10W/m
- **Colour Temperature:** 2700-4000K
- **Installation Groove:** 6mm Wide x 6mm Deep
- **Installation:** Recessed or Surface Mounted
- **Light Projection:** Symmetrical
- **Surface Fixing:** High-Strength 3M Adhesive Base
- **Mechanical Surface Fixing:** Hooks and Screws
- **Cutting System:** FREE-CUT – Cuttable at Any Point
- **Connection System:** Plug & Play
- **Reel Length:** 10m
- **Finish:** White

- **Energy Efficiency Class:** E
- **Power Supply:** 24VDC – Not Included

Applications

The **Domus Line AT6 ULTRA D-M Flexible LED Silicone Profile** is recommended for lighting a wide variety of **furniture and furnishing elements**. Its compact **6 x 6mm recessed installation**, alternative surface-mounting options, **2700–4000K D-Motion colour-temperature adjustment** and **FREE-CUT construction** make it suitable for made-to-measure furniture lighting installations requiring a discreet and adaptable LED solution.

Property	Value
Finish	White
Voltage	24VDC
Size	6mm Wide x 6mm Deep
Length	10m (reel)
Certification	CE & UKCA
Installation Type	Recessed or Surface Mounted
Power Rating (W)	10W/m
Colour Temperature	Temperature Changing (2700–4000K)
Connection System	Plug & Play
