

Domus Line AT6 Ultra Flexible LED Tape – 24V – 10W/m – 6 x 6mm – Warm White 3000K

Variant code: F0339000007

The **Domus Line AT6 ULTRA Flexible LED Silicone Profile** is a compact lighting solution designed for use on **furniture and furnishing elements**. Operating at **24VDC** with a power consumption of **10W/m**, this single-colour version provides a **Warm White 3000K** light output.

The AT6 ULTRA features **symmetrical light projection** and offers a choice of **recessed or surface-mounted installation**. For flush recessed fitting, the profile installs into a milled groove measuring just **6mm wide and 6mm deep**. For surface mounting, it incorporates a **high-strength 3M adhesive base** and is also supplied with hooks and screws for mechanical fixing.

Integrated **FREE-CUT technology** allows the profile to be cut to the required length at any point, providing flexibility for made-to-measure furniture lighting. The AT6 ULTRA also features a **Plug & Play connection system** and can be configured with a separately available power cable, back-to-back connector and end cap. The required **24VDC power supply is not included**.

Product Features

- **Plug & Play flexible LED silicone micro profile**
- Single-colour **Warm White 3000K** light output
- Operates from a **24VDC power supply**
- Power consumption of **10W per metre**
- Suitable for **recessed or surface-mounted installation**
- Requires a **6mm wide x 6mm deep milled groove** for flush recessed installation
- Provides **symmetrical light projection**
- Features integrated **FREE-CUT technology**
- Can be cut to the desired length **at any point on the profile**
- Features a **high-strength 3M adhesive base** for surface mounting

- Hooks and screws provided for **mechanical surface fixing**
- Features a **Plug & Play connection system**
- Configurable with separately available **power cable, back-to-back connector and end cap**
- Supplied as a **10m reel**
- Available in a **white finish**

Product Benefits

- **FREE-CUT technology enables made-to-measure installation by allowing the profile to be cut at any required point**
- **Compact 6 x 6mm recessed installation enables discreet integration into furniture and furnishing elements**
- **Choice of recessed or surface mounting provides flexibility across different furniture lighting installations**
- **Warm White 3000K** provides a warm single-colour lighting option
- High-strength **3M adhesive backing** provides a practical method of surface mounting
- Hooks and screws provide an alternative **mechanical surface-fixing method**
- **Plug & Play connectivity** enables configuration with compatible AT6 ULTRA connection accessories

Technical Characteristics

- **Product Type:** Flexible LED Silicone Micro Profile
- **Light Source:** Single Colour
- **Voltage:** 24VDC
- **Power:** 10W/m
- **Colour Temperature:** 3000K
- **Installation Groove:** 6mm Wide x 6mm Deep
- **Installation:** Recessed or Surface Mounted
- **Light Projection:** Symmetrical
- **Surface Fixing:** High-Strength 3M Adhesive Base
- **Mechanical Surface Fixing:** Hooks and Screws
- **Cutting System:** FREE-CUT – Cuttable at Any Point
- **Connection System:** Plug & Play
- **Length:** 10m Reel
- **Finish:** White
- **Energy Efficiency Class:** F
- **Power Supply:** 24VDC – Not Included

Applications

The **Domus Line AT6 ULTRA Flexible LED Silicone Profile – 3000K** is recommended for lighting a wide variety of **furniture and furnishing elements**. Its compact **6 x 6mm recessed installation**, alternative surface-mounting options, **Warm White 3000K** light output and versatile **FREE-CUT construction** make it suitable for made-to-measure furniture and cabinetry lighting installations requiring discreet and flexible integration.
