

Domus Line AT6 Ultra Flexible LED Tape – 24V – 10W/m – 6 x 6mm – Super Warm White 2700K

Variant code: F0339000006

The **Domus Line AT6 ULTRA Flexible LED Silicone Profile** is a compact Plug & Play lighting solution designed for use on **furniture and furnishing elements**. Operating at **24VDC** with a power consumption of **10W/m**, this single-colour version provides a **Super Warm White 2700K** light output.

The AT6 ULTRA features **symmetrical light projection** and offers flexible installation options, allowing it to be either **surface mounted or flush recessed**. For recessed installation, the profile fits into a compact milled groove measuring just **6mm wide and 6mm deep**. For surface mounting, the profile incorporates a **high-strength 3M adhesive base**, with hooks and screws also provided for mechanical fixing.

Integrated **FREE-CUT technology** allows the AT6 ULTRA to be cut to the required length at any point along the profile. Its **Plug & Play connection system** can be configured using a compatible power cable, back-to-back connector and end cap, which are sold separately. The required **24VDC power supply is not included**.

Product Features

- **Plug & Play flexible LED silicone micro profile**
- Single-colour **2700K light output**
- Operates from a **24VDC power supply**
- Power consumption of **10W per metre**
- Suitable for **recessed or surface-mounted installation**
- Requires a **6mm wide x 6mm deep milled groove** for flush recessed installation
- Provides **symmetrical light projection**
- **FREE-CUT technology** allows cutting at any point along the profile
- Features a **high-strength 3M adhesive base** for surface mounting
- Hooks and screws provided for **mechanical surface fixing**

- Features a **Plug & Play connection system**
- Configurable with separately available **power cable, back-to-back connector and end cap**
- Supplied in a **white finish**
- Supplied as a **10m reel**

Product Benefits

- **FREE-CUT technology enables made-to-measure installation by allowing the profile to be cut at any required point**
- **Compact 6 x 6mm recessed installation enables discreet integration into furniture and cabinetry**
- **Choice of recessed or surface mounting provides flexibility across different furniture lighting applications**
- The **2700K colour temperature** provides a warm lighting option for furniture installations
- High-strength **3M adhesive backing** provides a convenient surface-mounting option
- Hooks and screws provide an alternative **mechanical surface-fixing method**
- **Plug & Play connectivity** allows the profile to be configured with compatible AT6 ULTRA connection accessories

Technical Characteristics

- **Product Type:** Flexible LED Silicone Micro Profile
 - **Light Source:** Single Colour
 - **Voltage:** 24VDC
 - **Power:** 10W/m
 - **Colour Temperature:** 2700K
 - **Installation Groove:** 6mm Wide x 6mm Deep
 - **Installation:** Recessed or Surface Mounted
 - **Light Projection:** Symmetrical
 - **Surface Fixing:** High-Strength 3M Adhesive Base
 - **Mechanical Surface Fixing:** Hooks and Screws
 - **Cutting System:** FREE-CUT – Cuttable at Any Point
 - **Connection System:** Plug & Play
 - **Length:** 10m Reel
 - **Finish:** White
 - **Energy Efficiency Class:** F
 - **Power Supply:** 24VDC – Not Included
-

Applications

The **Domus Line AT6 ULTRA Flexible LED Silicone Profile – 2700K** is recommended for lighting a wide variety of **furniture and furnishing elements**. Its compact **6 x 6mm recessed installation**, alternative surface-mounting options, **2700K light output** and versatile **FREE-CUT construction** make it suitable for made-to-measure furniture and cabinetry lighting where discreet integration and flexible installation are required.

Property	Value
Finish	White
