

Domus Line AT6 Ultra Plug & Play Back-to-Back Connector – White

Variant code: F0004000001

The **Domus Line AT6 ULTRA Plug & Play Back-to-Back Connector** is a dedicated connection accessory designed for the **AT6 ULTRA flexible LED silicone profile**. It is specifically intended for **back-to-back connection** as part of a compatible AT6 ULTRA furniture lighting installation.

The connector forms part of the **AT6 ULTRA Plug & Play connection system**, allowing compatible sections of the LED profile to be connected together. It complements the separately available **AT6 ULTRA power cable and end cap**, enabling the lighting system to be configured according to the requirements of the installation.

Designed specifically for the **AT6 ULTRA system** and supplied in a **white finish**, this connector provides a dedicated solution for joining compatible profile sections. The back-to-back connector is **sold separately** from the AT6 ULTRA LED profile.

Product Features

- **Dedicated back-to-back connector** for the AT6 ULTRA LED profile
- Designed specifically for **back-to-back connection**
- Forms part of the **AT6 ULTRA Plug & Play connection system**
- Compatible with the **AT6 ULTRA flexible LED silicone profile**
- Allows compatible AT6 ULTRA profile sections to be connected together
