

Domus Line MAGY Brackets and End Caps Set for Recessed – Black

Variant code: 4018103/S

The **Domus Line MAGY Brackets & End Caps Set** is a dedicated accessory set for **recessed installation of the MAGY electrified track**. It provides the mounting and finishing components required when integrating the MAGY track flush into a suitable milled groove.

The set includes **2 heads, 2 end caps and 3 recessed springs**. The recessed springs provide the dedicated fixing components for recessed installation, while the heads and end caps are used to complete the ends of the MAGY electrified track.

The **cable heads** allow the power cord to exit axially along the installation surface, while the **end caps** close the opposite side of the track. Both components can also accommodate a **radial cable exit** by removing the pre-set sidewall, providing flexibility when configuring the recessed MAGY installation.

Product Features

- **Dedicated accessory set for the MAGY electrified track**
- Designed specifically for **recessed installation**
- Includes **2 heads**
- Includes **2 end caps**
- Includes **3 recessed mounting springs**
- Cable heads allow an **axial power cable exit**
- Heads and end caps can also accommodate a **radial cable exit**
- Radial cable exit is achieved by removing the **pre-set sidewall**
- End caps provide closure for the opposite end of the track
- Designed specifically for the **MAGY modular lighting system**

Product Benefits

- **Provides the dedicated mounting and**

finishing components required for recessed MAGY track installation

- **Includes heads, end caps and recessed springs together as a coordinated accessory set**
- **Supports both axial and radial power cable exit configurations for installation flexibility**
- **Recessed springs support secure integration of the MAGY track into a recessed installation**
- **End caps provide a neat closure to the ends of the track**
- **Purpose-designed components provide compatibility with the MAGY electrified track system**

Technical Characteristics

- **Product Type:** Track Mounting & End Cap Accessory Set
- **System:** MAGY
- **Installation Type:** Recessed
- **Heads:** 2
- **End Caps:** 2
- **Recessed Springs:** 3
- **Cable Exit:** Axial or Radial
- **Compatibility:** MAGY Electrified Track
- **Colour:** Black

Applications

The **Domus Line MAGY Brackets & End Caps Set – Recessed Mount – Black** is designed for completing **recessed MAGY electrified track installations** in furniture and integrated lighting applications. The included **recessed springs, heads and end caps** provide the dedicated mounting and finishing components for the track, with provision for either **axial or radial power cable exit** according to the installation configuration.
