

Domus Line MAGY Brackets & End Caps Set – Surface Mount – Black

Variant code: 4018203/S

The **Domus Line MAGY Brackets & End Caps Set** is a dedicated accessory set for the **surface-mounted MAGY electrified track system**. It provides the installation and finishing components required to support and complete a surface-mounted MAGY track installation.

The set includes **2 heads, 2 end caps and 3 surface springs**. The surface springs provide the dedicated mounting components for surface installation, while the heads and end caps provide the finishing elements at the ends of the MAGY electrified track.

The **cable heads** allow the MAGY power cable to exit axially along the installation surface, while the **end caps** close the opposite side of the track. Both components can also accommodate a **radial cable exit** by removing the pre-set sidewall, providing flexibility when configuring the MAGY installation.

Product Features

- **Dedicated accessory set for the MAGY electrified track**
- Designed for **surface-mounted installation**
- Includes **2 cable heads**
- Includes **2 end caps**
- Includes **3 surface mounting springs**
- Cable heads allow an **axial power cable exit** along the installation surface
- Heads and end caps can accommodate a **radial cable exit**
- Radial cable exit is achieved by removing the **pre-set sidewall**
- End caps provide a finished closure for the opposite side of the track
- Designed specifically for the **MAGY modular lighting system**

Product Benefits

- **Provides the dedicated mounting and**

finishing accessories required for surface-mounted MAGY track installations

- Includes heads, end caps and surface springs together as a coordinated installation set
- Supports both axial and radial cable exit configurations for greater installation flexibility
- End caps provide a neat finish to the ends of the electrified track
- Dedicated surface springs support installation of the **MAGY track in surface-mounted configurations**
- Purpose-designed components ensure compatibility with the **MAGY electrified track system**

Technical Characteristics

- **Product Type:** Track Mounting & End Cap Accessory Set
- **System:** MAGY
- **Installation:** Surface Mounted
- **Heads:** 2
- **End Caps:** 2
- **Surface Springs:** 3
- **Cable Exit:** Axial or Radial
- **Compatibility:** MAGY Electrified Track
- **Colour:** Black

Applications

The **Domus Line MAGY Brackets & End Caps Set – Surface Mount – Black** is designed for completing **surface-mounted MAGY electrified track installations** in furniture lighting applications. The included **surface springs, cable heads and end caps** provide the mounting and finishing components for the track, with provision for either **axial or radial power cable exit** depending on the installation configuration.
