Door Closer with Backcheck - Size 2-4 - Semi Radiused Cover - Silver

Variant code: FL3241.SE

Door Closer with Backcheck - Size 2-4 - Semi Radiused Cover is a compact, high-performance overhead door closer designed to deliver smooth, controlled door operation in commercial, public and residential buildings. Supplied with a **semi-radiused cover** and incorporating an adjustable **backcheck function**, it provides reliable door control while helping protect doors and surrounding walls from damage caused by forceful opening. Successfully third-party tested to **BS EN1154** and **CE marked**, the TS.5204 is ideal for a wide range of internal and external door applications.

Offering an **adjustable EN power size of 2 to 4**, the TS.5204 is suitable for doors up to **1100mm wide** and weighing up to **80kg**. Adjustable closing speed, latch speed and backcheck allow the closing action to be tailored to suit individual door requirements. The universal design enables installation in **standard, parallel arm or transom mounting positions**, providing excellent installation flexibility for contractors and facilities managers.

Fire tested to **EN1634-1** and designed to assist compliance with **BS8300 (Doc M)** accessibility requirements, the Rutland TS.5204 combines dependable performance, regulatory compliance and long-term durability for demanding commercial environments.
