

180° Door Viewer inc Glass Lens – 19mm – Suits 35–55mm Doors – Polished Chrome

Variant code: 3180.19.CP

The **180° Door Viewer with Glass Lens** is a premium security accessory designed to provide a wide-angle view of visitors before opening the door. Manufactured from durable **solid brass** and fitted with a **highly polished optical glass lens**, this high-quality door viewer delivers excellent image clarity and a generous **180-degree field of vision**. Suitable for doors between **35mm and 60mm thick**, it offers an effective and discreet security solution for residential and commercial properties.

The adjustable threaded body allows the viewer to be easily adapted to suit a range of door thicknesses by extending or shortening the male and female threaded sections during installation. The precision optical glass lens provides a clear, distortion-minimised image, allowing occupants to identify visitors safely before opening the door. Manufactured from corrosion-resistant brass, the viewer is designed to provide long-lasting performance while complementing traditional and contemporary door furniture.

Designed in accordance with the principles of the **DHF Technical Specification 002 (Door Viewers)**, this door viewer is suitable for new installations and replacement applications where dependable security and professional appearance are required.

Product Features

- 180° wide-angle door viewer
- Premium polished optical glass lens
- Solid brass construction
- 19mm door viewer
- Adjustable threaded body for multiple door thicknesses
