Double Ball Bearing Hinge 76 x 50 x 3mm - Square Corners - Stainless Steel

Variant code: 2221.00.PSS

Double Ball Bearing Butt Hinge is a premium architectural hinge designed to provide smooth, reliable door operation for residential and light commercial applications. Engineered with a precision **double ball bearing mechanism**, it delivers low-friction performance, helping to reduce wear while ensuring consistent and quiet door movement throughout its service life.

Manufactured in a **76 x 50 x 3mm** size, this hinge is available in a choice of **Black**, **Polished Stainless Steel**, **PVD Brass**, and **Satin Stainless Steel** finishes to complement a wide range of architectural door hardware. The hinge is supplied **in pairs**, making it suitable for standard internal door installations. Its robust construction provides dependable everyday performance while coordinating seamlessly with matching ironmongery for a professional, consistent finish.

Whether specified for new-build or refurbishment projects, this double ball bearing hinge combines durability, smooth operation and contemporary styling, making it an excellent choice for modern homes, apartments, offices and commercial interiors.

Product Features

- **Double ball bearing butt hinge**
- **76 x 50 x 3mm** hinge size
- Available with **square corners** (where applicable)
- Precision **double ball bearing** mechanism
