Sugatsune Heavy Duty Concealed Cabinet Door Hinge - Boss Cover Plate - Nickel

Variant code: ACH09000NI

Sugatsune Heavy Duty Concealed Cabinet Door Hinge - Boss Cover Plate - Nickel is designed to conceal and protect the exposed hinge boss area on heavy-duty concealed cabinet door hinge installations. Manufactured by **Sugatsune**, a globally recognised specialist in precision architectural and furniture hardware, this cover plate enhances the finished appearance of concealed hinge assemblies while protecting exposed hinge fixing points within cabinet interiors.

The cover plate fits securely over the hinge boss area to **hide visible hinge fixing points**, creating a cleaner and more refined cabinet interior. By covering the exposed hardware interface, it helps protect the hinge fixing area from dust, debris and incidental contact during everyday cabinet use. This component is designed to integrate with **heavy-duty concealed cabinet hinge systems**, ensuring compatibility with hinges commonly used in demanding cabinet installations.

Finished in a **Nickel surface finish**, the cover plate provides a neutral appearance that complements a wide range of cabinet hardware and interior finishes. The durable finish supports long-term use while maintaining a coordinated appearance with concealed hinge systems and other cabinet fittings.

The compact design allows the cover plate to install easily over the hinge boss area without interfering with hinge operation or door movement. As part of the Sugatsune concealed hinge hardware ecosystem, the component contributes to both functional protection and improved cabinet presentation in high-quality furniture installations.

Product Features

- Cover plate designed for **concealed cabinet hinge boss areas**
- Compatible with **heavy-duty concealed hinge systems**

- Helps **conceal exposed hinge fixing points**
- **Nickel finish** for a clean, neutral appearance
- Compact design that does not interfere with hinge movement
- Improves the overall presentation of cabinet interiors

Product Benefits

- Creates a cleaner and more refined cabinet interior
- Protects hinge fixing points from dust and debris
- Enhances the visual finish of concealed hinge installations
- Maintains coordinated cabinet hardware appearance
- Supports long-term durability in cabinet interiors
- Suitable for residential and commercial cabinetry

Technical Characteristics

- Designed for concealed cabinet hinge boss coverage
- Compatible with heavy-duty concealed hinge systems
- Nickel surface finish
- Compact protective cover design
- Installs over hinge boss fixing area
- Suitable for interior cabinet installations

Applications

This hinge boss cover plate is used in cabinetry where heavy-duty concealed hinges are installed and exposed hinge fixing points require concealment. It is commonly specified in kitchens, wardrobes, office furniture and commercial joinery where a clean cabinet interior appearance and protection of hinge components are required. The Nickel finish allows the component to blend with a wide range of cabinet hardware finishes and interior furniture designs.
