DS30 Invisible Soft Closing Hinge100° opening Angle for up to 30kg door weight - Black - Left Hand

Variant code: 50DS30CERSX42

The **DS30 Invisible Soft Closing Hinge** is a premium concealed furniture hinge designed for modern cabinetry requiring exceptional strength, precise adjustment and a seamless appearance. Manufactured from **steel, zamak and nylon**, the DS30 is engineered to support cabinet doors weighing up to **30kg**, making it ideal for heavy-duty furniture applications.

Installed completely within milled cabinet panels, the DS30 remains hidden when the door is closed, delivering a clean, minimalist finish. The hinge features **three-way adjustment**, allowing horizontal, vertical and frontal positioning for perfect door alignment during installation. Finished in **Black Nickel-Plated**, the DS30 provides a sophisticated contemporary appearance while maintaining outstanding durability. It can also be fitted to aluminium profiles using the dedicated zamak mounting brackets and screw cap.

Suitable for premium residential and commercial furniture, the DS30 combines concealed installation with smooth soft-closing performance and professional-grade reliability.

Product Features

- Premium invisible soft closing cabinet hinge
- Black nickel-plated finish
