

Exposed Axle Hinge – 250° – Full Overlay – Aximat 100

Variant code: 344.21.110

Large opening angle provided by external pivot point (axle), with almost no loss of space inside the cabinet due to the flat design.

Cabinet construction or continuous construction possible.

With integrated automatic closing spring.

Features:

- Area of application – for cabinet construction and continuous construction
- Concealed hinge version – Full overlay
- For door material – Wooden doors
- Door processing for assembly – Without
- Material – Zinc alloy
- Opening angle – 250°
- For door thickness – ≤20 mm
- Cup drilling depth – 11.50 mm
- Cup drilling Ø – 35.00 mm
- Drilling pattern – 48/6
- Gap – 6.00 mm
- Door overlay – 13.00 mm
- Adjustment facility – 2-dimensional
