External Forged Cabin Hook - 6" - Beeswax

Variant code: 45604

Our range of cabin hooks are ideal for safely holding open doors and window. Most commonly used on external patio or french doors, they can also be used to secure shutters in place or keep cupboard doors closed.

Our cabin hook is hand forged from mild steel using the traditional manufacturing method of an anvil and fire. A perfect design choice for internal or external doors with matching products available.

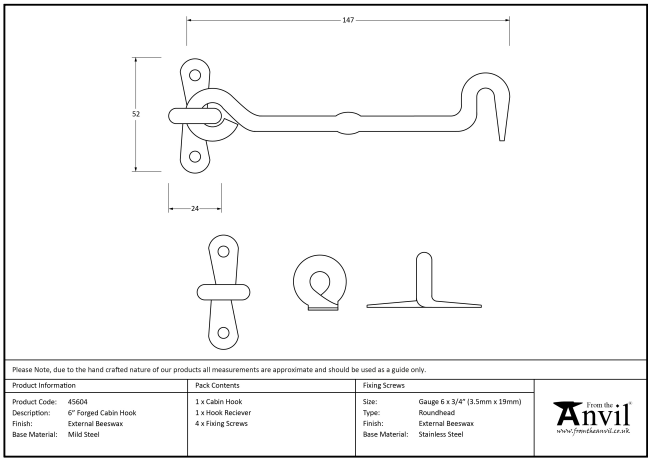

- Available in eight different sizes.
- Supplied with matching SS wood screws.

Our external beeswax is unique to From the Anvil and is manufactured from an anti-corrosive beeswax. It has a matt richness and like our standard beeswax, the depth of colour ranges from blue to deep red ochre. An extremely natural finish and a far softer alternative to a black powder coated finish.

Property	Value
Finish	External Beeswax
Range	Forged
Overall Length (mm)	147
