Sugatsune Heavy Duty Concealed Cabinet Door Hinge - Face Plate & Adapter for Glass Door - Antique Brass

Variant code: ACH0985OAB

Sugatsune Heavy Duty Concealed Cabinet Door Hinge - Face Plate & Adapter for Glass Door is designed to enable the installation of concealed hinges on glass or mirror cabinet doors, providing a secure fixing interface without the need for traditional drilling. Manufactured by **Sugatsune**, a globally recognised specialist in precision architectural and furniture hardware, this component allows glass doors to be integrated into concealed hinge systems while maintaining both structural integrity and refined aesthetics.

The face plate and adapter system attaches to the glass surface to **create a secure mounting point for concealed hinges**, ensuring reliable connection between the hinge mechanism and the door. This allows glass and mirror panels to be used in conjunction with heavy-duty concealed hinges, supporting smooth door operation and consistent alignment.

Designed for compatibility with **Sugatsune heavy-duty concealed hinge systems**, the adapter integrates seamlessly without affecting hinge performance. It supports accurate positioning and helps maintain correct door geometry, ensuring stable and consistent operation over time.

Available in a range of finishes including **Nickel, 24K Gold Plate, Black Nickel, Antique Brass, Satin Nickel, Polished Chrome and Black**, the face plate and adapter can be specified to match a wide variety of cabinet hardware and interior design schemes. The durable finish options provide both aesthetic flexibility and resistance to wear in residential and commercial environments.

Product Features

- **Face plate and adapter for glass or mirror cabinet doors**
- Creates a **secure hinge mounting point without drilling**
- Compatible with **Sugatsune concealed hinge systems**
- Supports stable hinge connection and

door alignment
- Designed for use with glass and mirror panels
- Available in multiple finishes for design flexibility

Product Benefits

- Enables concealed hinge installation on glass doors
- Maintains clean and minimal cabinet aesthetics
- Provides secure and reliable hinge fixing
- Supports smooth and consistent door operation
- Allows coordination with a wide range of hardware finishes
- Suitable for residential and commercial cabinetry

Technical Characteristics

- Adapter system for glass and mirror door hinge fixing
- Compatible with heavy-duty concealed hinge systems
- Designed for adhesive or fixed mounting depending on specification
- Supports accurate hinge positioning and door alignment
- Durable construction for long-term performance
- Available in Nickel, 24K Gold Plate, Black Nickel, Antique Brass, Satin Nickel, Polished Chrome and Black finishes

Applications

This face plate and adapter is used in cabinetry where glass or mirror doors are required to operate with concealed hinge systems. It is commonly specified in kitchens, display cabinets, wardrobes, retail fixtures and commercial interiors where a clean, modern appearance is essential. The ability to mount hinges securely without drilling the glass makes it particularly suitable for high-end furniture and bespoke joinery, while the range of finishes allows seamless integration into both traditional and contemporary design schemes.
