Fastmount Install Tool Self Tapping Clip - Male

Variant code: CT-10

Fastmount Installation Tool for Self-Tapping Male Clips (CT-10) is a professional installation accessory designed for the rapid and accurate fitting of **Fastmount® self-tapping male clips**. Compatible with the **Standard Profile, Low Profile and Panel Control ranges**, the tool is used with a battery drill set to the correct torque, ensuring secure and consistent installation while reducing fitting time.

Engineered for precision and ease of use, the CT-10 installation tool is suitable for fitting **PC-M1B, PC-M2H, PC-VM1, PC-VMX, PS-150 and LP-M8** self-tapping male clips. Its robust construction provides reliable performance in workshop and on-site environments, helping installers achieve accurate clip positioning while protecting both the clips and mounting surfaces.

The Fastmount® multi-award-winning concealed panel mounting system allows panels to be removed and refitted repeatedly in any sequence without damaging the fixing system, making it the preferred solution for architectural joinery, marine interiors, furniture manufacturing and commercial fit-out projects.

Product Features

- Installation tool for **Fastmount® self-tapping male clips**
- Compatible with:
  - Standard Profile
  - Low Profile
  - Panel Control Range
- Suitable for installing:
  - PC-M1B
  - PC-M2H
  - PC-VM1
  - PC-VMX
  - PS-150
  - LP-M8
- Designed for use with a battery drill
- Use with the correct drill torque setting
- Genuine Fastmount® installation tool

Product Benefits

- Enables fast and accurate clip installation

Tel: 01626 333900
