Fastmount Low Profile Clip Centre Point - Stainless Steel Tip

Variant code: CP-08ST

Fastmount Low Profile Clip Centre Point is a precision alignment tool designed to ensure accurate positioning of **Fastmount Low Profile concealed panel clips** during installation. Featuring a durable **stainless steel marking tip**, this centre point is specifically engineered to mark harder panel materials, allowing installers to achieve precise clip alignment for a professional finish. Compatible with the **LP-F8** and **LP-DF8** Fastmount clips, it is an essential accessory for accurate panel preparation.

The hardened stainless steel tip creates a clear, accurate transfer mark on tougher panel materials, ensuring that mating clips are positioned correctly for optimum engagement. This improves installation accuracy, reduces fitting errors and helps minimise installation time. For best results, the centre point should be used in accordance with the relevant Fastmount installation guides.

As part of the award-winning Fastmount installation system, the Low Profile Clip Centre Point supports concealed panel installations that allow panels to be removed and refitted repeatedly in any sequence, making future maintenance and servicing quick and efficient without compromising panel alignment.

Product Features

- Genuine Fastmount alignment centre point
- Designed for Fastmount Low Profile clip systems
- Stainless steel marking tip for hard panel materials
- Provides accurate clip alignment during installation
- Compatible with LP-F8 and LP-DF8 clips
- Produces precise transfer marks
- Durable construction for repeated professional use
- Supports fast, accurate concealed panel installation

Product Benefits

Tel: 01626 333900
Email: info@swshardware.com

- **Creates accurate alignment marks on hard panel materials**
- **Improves clip positioning for reliable concealed panel installation**
- **Stainless steel tip delivers long-lasting durability and precision**
- Reduces installation errors and rework
- Speeds up panel preparation and installation
- Designed specifically for Fastmount Low Profile systems
- Ensures professional-quality panel alignment
- Suitable for repeated use in demanding environments

Technical Characteristics

- Product Type: Clip Centre Point
- Brand: Fastmount
- Tip Material: Stainless Steel
- Compatible Clip Systems: Fastmount Low Profile
- Compatible Clips: LP-F8 and LP-DF8
- Application: Clip Alignment and Panel Marking
- Use: Installation Tool Accessory

Applications

The **Fastmount Low Profile Clip Centre Point** is ideal for **architectural wall and ceiling panels, marine interiors, transport fit-outs, commercial joinery, exhibition displays, retail installations and modular panel systems**. Designed for use with the **Fastmount LP-F8 and LP-DF8 Low Profile concealed clips**, it enables accurate marking and alignment on harder panel materials, ensuring precise clip positioning and reliable long-term panel performance.
