# Fastmount Metal Clip Centre Point

**Variant code: MC-CP5**

**Fastmount Metal Clip Centre Point (MC-CP5)** is a precision alignment tool designed to simplify the installation of the **Fastmount® Metal Clip mounting system**. Featuring a durable **stainless steel marking tip**, it accurately transfers the clip position to the rear of the panel, ensuring precise hole placement for correct clip alignment and professional concealed panel installations.

Designed to fit directly into the **Fastmount® MC-F5 female clip**, the centre point creates an accurate reference mark that eliminates guesswork during panel preparation. This improves installation accuracy, reduces fitting errors and helps ensure consistent engagement between male and female clips.

The **Fastmount® multi-award-winning concealed panel mounting system** enables panels to be removed and refitted repeatedly in any sequence without damaging the fixing system, making it the preferred solution for architectural joinery, marine interiors, commercial fit-outs and industrial applications.

## Product Features

- Precision centre point alignment tool
- Designed for the **Fastmount® Metal Clip range**
- Stainless steel marking tip
- Fits directly into **Fastmount® MC-F5 female clip**
- Accurately marks panel hole centres
- Improves clip alignment during installation
- Durable professional-grade construction
- Genuine Fastmount® installation accessory
- Refer to Fastmount installation guide for correct use

## Product Benefits

- Ensures accurate hole positioning for panel installation
- Reduces installation errors and rework
- Speeds up panel preparation
- Improves alignment between mating clips

- Delivers consistent, professional installation results
- Durable construction for repeated workshop and on-site use

## Technical Characteristics

- **Product Type:** Centre Point Alignment Tool
- **Brand:** Fastmount
- **Model:** MC-CP5
- **Compatible System:** Fastmount® Metal Clip Range
- **Compatible Clip:** MC-F5 Female Clip
- **Tip Material:** Stainless Steel
- **Function:** Panel Hole Centre Marking
- **Application:** Concealed Panel Installation

## Applications

The **Fastmount MC-CP5 Metal Clip Centre Point** is ideal for **cabinet makers, furniture manufacturers, shopfitters, marine installers, exhibition contractors, architectural joiners and industrial fabricators** installing **Fastmount® Metal Clip concealed panel systems**. It provides fast, accurate transfer of clip positions to panels, helping achieve precise alignment and reliable removable panel installations across commercial, residential, marine and industrial environments.
