Fastmount Metal Self Tapping Clip - Male

Variant code: MC-M5

Fastmount Metal Self-Tapping Male Clip (MC-M5) is a heavy-duty concealed mounting clip designed to provide a secure, removable fixing for panels in demanding commercial, industrial and marine applications. Featuring a **self-tapping design**, the clip installs directly into plywood and similar substrates, simplifying installation while delivering a strong and reliable connection with compatible **Fastmount® Metal Range female clips**.

Manufactured from durable metal, the MC-M5 offers excellent strength, wear resistance and long-term performance in high-use environments. Its precision-engineered design provides accurate engagement with mating clips, allowing panels to be repeatedly removed and refitted without compromising the integrity of the concealed mounting system.

As part of the **Fastmount® Metal Clip range**, the MC-M5 supports clean, concealed installations while providing quick access for inspection, maintenance and servicing, making it ideal for professional removable panel applications.

Product Features

- Metal self-tapping male clip
- Compatible with Fastmount® Metal Range female clips
- Self-tapping design for quick installation
- Concealed mounting system
- Durable all-metal construction
- Strong, vibration-resistant connection
- Suitable for repeated panel removal and reinstallation
- Ideal for plywood and similar substrates
- Genuine Fastmount® Metal Range clip

Product Benefits

- Speeds up installation with self-tapping fixing
- Provides a strong and secure concealed connection
- Allows easy panel removal for maintenance and servicing
- Delivers reliable performance in

demanding environments
- Durable metal construction ensures long service life
- Supports clean, professional panel installations

Technical Characteristics

- **Product Type:** Male Concealed Mounting Clip
- **Brand:** Fastmount
- **Model:** MC-M5
- **System Compatibility:** Fastmount® Metal Clip Range
- **Clip Type:** Self-Tapping Male
- **Material:** Metal
- **Installation:** Self-Tapping into Plywood and Similar Substrates
- **Application:** Concealed Removable Panel Mounting

Applications

The **Fastmount MC-M5 Metal Self-Tapping Male Clip** is ideal for **marine interiors, architectural joinery, furniture manufacturing, commercial fit-outs, transport vehicles, exhibition systems, industrial machinery enclosures and retail displays**. Designed for use with compatible **Fastmount® Metal Range female clips**, it provides a strong, concealed and removable fixing solution that allows panels to be quickly removed and refitted for inspection, maintenance or servicing while maintaining a clean, professional finish.

Property	Value
Finish	Plain
Width (mm)	29
Length (mm)	21.9
Height (mm)	29
Material	Zinc Alloy
Min. Panel Thickness (mm)	8
Weight (g)	13
Fasteners Type	3.5 mm / #6 self tapping screw
Installation Type	Self tapping / Screw on
